Coders & Bots

Coders

Navigator: You are responsible for the overall plan for the program. Guide the Writer and keep track of what your program is doing.

Writer: Add code to your program. Pay attention to syntax.

Bots

Stepper: Step through the program and read each step aloud. Keep your finger on the step you are reading.

Actor: Listen carefully to each line of code the Stepper says aloud. Using the materials available, show what each line of code does.
