

# Coders & Bots

---

## Coders

---

**Navigator.** You are responsible for the overall plan for the program. Guide the Writer and keep track of what your program is doing.

**Writer.** Add code to your program. Pay attention to syntax.

## Bots

---

**Stepper.** Step through the program and read each step aloud. Keep your finger on the step you are reading.

**Actor.** Listen carefully to each line of code the Stepper says aloud. Using the materials available, show what each line of code does.
